To Summon Father Malone.

Senator Overman has decided to summon Father Malone of Colorado to inquire into his alleged connection with the Great Western Sugar Company of Colorado and other interests of that state. Senator Overman has reached this decision after hearing reports which came to his committee indirectly from another Colorado priest. Father Malone was subpoenaed once before by the committee, but was excused later. The story of great interest to the lobby investigators in connection with Father Malone is that the Great Western Sugar Company retained Father Malone for \$10,000 to come to Washington and lobby against free sugar.

Father Malone is a priest without a charge. He has been a member of the diocese for more than a quarter of a cen-tury, but for two decades has been with-out a church or any fixed duties.

KNIGHTS OF KHORASSAN MEET

Official Recognition by K. P. Su preme Lodge up for Discussion.

MINNEAPOLIS, Minn., July 14,-Seventeen special trains, bringing delegates from forty states of the union, Manitoba, British Columbia and Alberta, representing 150 temples, arrived last night and today for the blennial convention of the Imperial Palace, Dramatic Order of the Knights of Khorassan, which will open here tonight. The sessions will continue until Friday evening.

The supreme lodge officers of the Knights of Pythias, with which the imperial palace is identified, have arrived as well as those of the palace. One of the important questions to come before the convention will be that of the official recognition of the subordinate order by the Knights of Pythias. This has never been done, since its organization in 1905, and the presence of the supreme officers is to discuss and possibly take official action.

PARCEL POST MAP BARRED Post Office Department to Adopt Charts in Its Stead.

The use of the cumbersome parcel post map has been ordered discontinued by Postmaster General Burleson in so far as postmasters and the general public are concerned as a means of determining rates of postage. In the future a chart Columbia last week, will promptly con- will be prepared from the original map by the Post Office Department especially for each unit of area, showing the location of the various units from that particular point, and bound in the parcel

post guide. This arrangement will make it possible to locate a unit and determine the rate of postage on a parcel more readily. To do this it will only be necessary to refer to the name of the post office in the guide to learn the number of the unit in which it is located and then consult the special chart for the zone location of the unit. The use of the map has not only been found expensive, but requir-ing too much time to locate a unit.

REQUEST IS DENIED

French Government Not Permitted to Secretary Garrison has declined the request o fthe French government for per-

The original request covered not only the government factories, but the great private corporations which make the larger part of the smoket was the doorstep of his own dwelling less powder consumed by the government. The Secretary's declination as to the government factories was based upon the lack of reciprocity on the part of the French government, which had declined to allow American ordnance officers to examine the French ordnance factories. As to the private powder concerns, the Secretary pointed out that the United

States government had no control whatever over them.

The War Department buys most of its powder under contract from an American company—the du Pontand that corpora-tion protested vigorously against the dis-closure of its trade secrets to a foreign

Surgeon General Would Improve Navy's Personnel.

Surgeon General Stokes of the navy has advanced a proposition to improve the personnel of the commissioned officers of the navy by eliminating all those who are temperamentally unfit for naval service in the higher grades. In a special paper prepared by him the surgeon general takes the ground that the time has arbe developed for the segregation of those temperamentally unsuited for a naval career. He holds that the success of our arms at sea may depend largely upon the temperamental qualifications of the commander in chief.
